

CHECKLIST OF MAGAZINES INDEXED

In the list that follows, the date of an issue is given at the beginning of a line, followed by volume and number, and cover artist and title of the story illustrated, where known. A cover picture that does not illustrate a story is, in most cases, briefly described. Each issue of Weird Tales has been given a "whole number," preceding the other information; this, of course, was not given in the magazines themselves.
